The Firms dealing in Oil Circuit Breakers.

Enquiry No. 1917.

REPLACEMENT OF GENERATOR OIL CIRCUIT BREAKERS FOR UNITS 5, 6 & 7 AT SIVASAMUDRAM.

SIR,

I write to request you to quote your best price and earliest time of delivery for the following materials :—

Item (1). *Three*—Oil Circuit Breakers, triple pole, single throw, 7,500-volts, 2,000-amps., 110-volts, D. C. motor-operated, bottom connected, complete with trip coils, auxiliary switches, oil for the first filling, top and bottom soap stone slabs, channel irons, cell-doors, and all other accessories required for the complete installation of the circuit breakers except cell masonry.

Item (2). *One*—Manually closing device for use with the breakers mentioned above.

The above breakers shall conform to the following specifications :—

The circuit breakers shall be suitable for installation in the existing masonry cells as shown on our drawing No. S. 1024, adjacent to other similar oil circuit breakers that will continue to be in service while these breakers are being installed. The principle dimensions of the switchgear shall be as shown on the drawing referred to above. The circuit breakers must be designed to use the existing holding-down bolts in the side walls, but the existing division walls will be completely dismantled and rebuilt to suit the new breakers, if necessary.

The bushings for the breakers shall be of the oil-filled type and made of high grade porcelain. The breakers shall be supplied complete with explosion chambers and gas vents.

The rupturing capacity of the oil circuit breakers shall not be less than 350,000 KVA., at rated voltage, based on 2 unit operating cycles with a two-minute interval between the two cycles, each unit operating cycle consisting of a closing of the breaker followed immediately by its opening without purposely delayed action. The breakers shall perform the rated duty under these conditions without emitting flame or throwing oil, and at the end of the duty cycles the main current carrying parts and other parts of the breakers shall be in substantially the same condition as at the beginning. They shall be capable of carrying full load at rated voltage afterwards until such time that it is possiblee to inspect them, and the temperature in any part of the breakers shall not exceed 30° C. above an ambient temperature of 40° C.

The operating mechanism of the breakers shall be suitable for automatic remote control on 110-volts D. C. and be capable of operation over a range of voltage from 70 to 140 volts. The breakers shall not pump either when closing or opening.

The contacts of each phase of the breakers shall be in separate tanks and the design of the breaker shall be based on the oil-blast principle with explosion chambers and gas vents. Alternative designs for achieving the same purpose will be considered and the tenders must contain details, drawings and descriptive literature relating to this part of the design.

The circuit breakers will be controlled by pull and pull control switches from the control room, and the motor operating mechanism, auxiliary switch, etc., must be designed to be entirely suitable for control by such switches on the bench-board.

The existing circuit breakers of this type in the Sivasamudram Station are fitted with top and bottom soap stone slabs. The slabs must be sent out in 3 separate pieces, one for each cell. They shall be strong enough for the purpose and shall in addition insulate the live parts effectively from ground. The terminals shall be suitable to receive 2 bus-bars $4'' \times \frac{1}{4}''$.

The tenderers shall quote for circuit breakers complete with all the materials, such as terminals, control contactors, etc.

The tenderers shall clearly specify the interrupting capacity (specifying the definition of the interrupting capacity) of the oil circuit breakers under 2 unit operating cycles as mentioned above, the operating time of the breakers, *i.e.*, the time taken by the breakers to interrupt the circuit under fault conditions from the moment of energizing the trip coils, the flash-over values of the bushings, the short time (5 seconds) current carrying capacity, etc. Oscillograms showing the voltage and current characteristics during circuit breaking shall also be included in the tenders.

The breakers will be required to be tested in accordance with the latest standards of the A. I. E. E. or the B. E. S. A. and test certificates will be required of the successful tenderer at the time of the supply of the breakers.

The tenderers shall note that the materials will have to be transported over the meter gauge section of the Mysore Railways during part of the journey and as such the packages will have to be within the permissible moving dimensions.

The price to be quoted should be for delivery, c. i. f., Madras.

This enquiry will close on the 30th September 1936.

PROSPECTUS OF THE SRI CHITRA EXHIBITION

TO BE HELD DURING THE CELEBRATIONS CONNECTED WITH

THE BIRTHDAY OF HIS HIGHNESS THE MAHARAJA OF TRAVANCORE, NOVEMBER 1936.

FOREWORD.

It is proposed to hold an All-India Exhibition in Trivandrum in connection with the celebration of the next Birthday of His Highness the Maharaja, which comes off on the 12th November 1936.

The Birthday of His Highness the Maharaja is a very important occasion in Travancore when the people vie with one another in celebrating it in a fitting manner and, in Trivandrum, the capital of the State, there will be many important ceremonial and official functions during the Birthday Week. The Birthday Celebrations in Trivandrum attract several thousands of sight-seers and holiday makers from all parts of Travancore and also from outside the State. Distinguished guests, aristocrats, business magnates, professional men and others will take part in these functions.

The Exhibition will be conducted on a grand scale. Exhibits from all over India, whether manufactured in this country or abroad, will be welcome. This will be a fitting occasion for wide publicity; and the advertising value of the wares exhibited will indeed be great. It is expected that large numbers of exhibits from all parts of India will be received, and a large concourse of people will avail themselves of this opportunity to visit this picturesque part of India at a time when they will have a rare chance of witnessing the many functions associated with the Birthday Celebrations. Travancore can rightly claim a place among the most advanced States in India. Advantage can also be taken by those who are so inclined, to visit the many celebrated shrines and important places of absorbing interest like Cape Comorin, Janardanam, etc.

The Exhibition is intended primarily to enable the people to know the nature and extent of the natural resources, actual and potential, of the State, to consider how best they can be utilised and developed, to guage the comparative position of Travancore in respect of economic activities, and, while advertising and popularising the existing industries, encourage all active and prospective industrialists, manufacturers, artisans and others to emulate, by comparison and study, their brethren elsewhere so that the pace of economic progress in the State may be further accelerated.

The Exhibition will be in the hands of a large and responsible Committee composed of leading officials and non-officials and will be conducted on up-to-date lines with Government co-operation. It is hoped that agriculturists, industrialists, traders and others interested will avail themselves of this opportunity to exhibit and advertise their wares by participating in the Exhibition.

GENERAL INFORMATION.

1. The Exhibition will be called "The Sri Chitra Exhibition, 1936."

2. Accommodation for exhibits (except machinery to be used for demonstration purposes) will be provided in the stalls. The provision of accommodation is subject to the payment of rent as will be indicated in the rules. All reasonable facilities will be afforded for demonstration of machinery and methods.

3. The stalls will be of uniform size, each measuring 10′×10′. Stalls will be available insingle or multiple units. Those who desire to have stalls of special dimensions may apply to the Convener and arrangements will be made for such special stalls if space and time permit. Special rates on application.

4. A general stall will be opened for exhibiting small articles and rare specimens under the direct supervision of the Exhibition Committee for the convenience of those exhibitors who do not attend in person or send their representatives. A minimum rent, to be paid in advance, will be charged for such exhibits and 10 per cent commission on sale.

5. The stalls will be provided with electric lights.

6. The Committee will make arrangements with the Railway Companies regarding concessions in the matter of freight on exhibits.

N.B.—If the sale is not concluded on the day notified, it will be continued and concluded on the next day.

Conditions.

1. Each bidder shall place a deposit of Rs. 200 with the officer conducting the sale but defaulters to the department will not be allowed to bid at the sales.

In the case of purchasers not exceeding Rs. 200 in value, this initial deposit of Rs. 200 need not be insisted upon, provided that the full purchase money is paid in cash on the spot.

2. Any person bidding at the sale may be required by the officer conducting the sale to state whether he is bidding on his own behalf or as an agent, and in the latter case, to produce a written authority duly signed by the principal.

3. Subject to the minima prices fixed in each case by the Chief Conservator of Forests (which will not be divulged), the highest bidder shall ordinarily be the purchaser, but the officer conducting the sale can reject any bid or stop the sale at any stage without assigning any reason to the intending purchasers. Should any lot be disputed, it shall again be put up and sold.

4. Immediately after the lot is knocked down to him, the successful bidder shall sign his name opposite the number and specification of the lot bought by him in a book provided for the purpose. Such signature shall be held as admission on his part of having bought such lot and of having accepted the terms of the sale as herein specified. Should any purchaser fail to comply with this rule, the initial deposit of Rs. 200 shall at once be forfeited to Government and the officer conducting the sale shall be at liberty to resell the timber purchased by such defaulter who shall be required to make good any loss, but shall not participate in any profit from such resale. The amount due by such defaulter on account of loss from resale shall be recovered from him as a revenue demand under Section 79 of the Mysore Forest Regulation. In calculating such losses, the initial deposit forfeited to Government shall not be taken into account.

In cases of resales for default of payment of value where no bidders are forthcoming, it will be open to the District Forest Officer to fix such price as may appear to him to be reasonable and to proceed for the recovery from the defaulter of the balance, if any, after deducting the price so fixed from the original sale amount. The money shall be paid into such treasury as the District Forest Officer may direct within the time specified.

8. If the amount is not fully paid for by the purchaser before the dates fixed above, the initial deposit as well as the other moneys already paid in shall be forfeited to Government and all or any portion of the timber not fully paid for shall be resold at the risk of the purchaser in the manner prescribed for default of payment of one-tenth value in clause 5 *supra*. Interest at $6\frac{1}{4}$ per cent per annum will be levied on all arrears of amounts which are permitted to be paid after the due date.

9. No timber lot shall be permitted to be removed by the purchaser unless it has been paid for in full, calculated at the rates at which the timber is knocked down to him at the time of sale, excluding the 10 per cent deposit paid for the lot at the time of the sale and no timber shall be removed from the depot, unless a permit is obtained from the Forest Officer in charge of the depot. The earnest money will not be adjusted towards the value of timber until 90 per cent of the purchase money over and above the security deposit has been paid.

10. Timber purchased should be removed as early as possible, and in no case should it be allowed to remain longer than 90 days after the dates fixed in clause 7 *supra*. Timber not removed after purchase will remain in the depot at the risk of the purchaser from the date of the confirmation of the sale.

11. If the timber is not removed within the time allowed, the same may, after ten days' notice to the purchaser, be sold in public auction and the proceeds will be given to the purchaser after defraying all the expenses in connection with the resale.

12. The deposit of Rs. 200 will remain as security for the due fulfilment of all and every one of the terms of sale, on the breach of any of which by the purchaser, the District Forest Officer shall be entitled to forfeit the deposit in whole or in part and in the event of such forfeiture, the sum so forfeited shall be immediately made good by the purchaser so long as the transaction is not finally closed. MONOPHONES FOR TRUNK OPERATION.

GENTLEMEN,

I write to request you to quote your best price and earliest time of delivery for the following equipment :—

Fifty Monophones (combined transmitter and receiver) of moulded bakelite, conforming to the British Post Office Specification and suitable for tropical conditions.

The price to be quoted should be for delivery f.o.b., British port or c.i.f., Madras.

The quotations should be followed by the description literature and specification of the Instruments offered.

A brief specification of the instruments required is given below.

The enquiry will close on 5th October 1936.

SPECIFICATION FOR MONOPHONES.

The Monophones should be made of black moulded bakelite and should be suitable for tropical conditions. They should be designed to conform to the British Post Office Specification and are required to be used for trunk automatic telephone line service. The Monophones should be fitted with a standard dial suitable for Strowger Automatic Telephone System.

The transmitter should be of the "Inset" type of the latest design, and the receiver should have a transmission efficiency superior to the normal commercial bell receiver.

The electrodes should be wholly immersed in the granules to ensure permanent contact and uniform pressure.

The moving parts should have the least effective mass, and the instruments should not fry or howl or break circuit. The transmission efficiency and resistance of the set should remain steady irrespective of the manner in which the instruments are held. The transmission efficiency should be not less than that specified in the British Post Office standards.

The instruments should be so designed that the side tone is fully controlled by "Anti side-tone induction coil" circuit which is adaptable for use in conjunction with any other standard type of telephone instruments such as the candle stick telephones, wall telephones and public telephones of the "coin-collecting" type. The side tone should always be kept within such limits that the speaker does not experience overloading effect in spite of the wide range of line conditions which are met with in actual practice.

„ (2) 8,100 lbs. of Stalloy Stampings as per Sketch No. 2 of drawing No. 150
„ (3) 20,250 lbs. of Stalloy Stampings as per Sketch No. 3 of drawing No. 150.
„ (4) 215 lbs. of Stalloy Stampings as per Column No. 1 of drawing No. G. 416 which can be had from the undersigned on application.
„ (5) 325 lbs. of Stalloy Stampings as per Column No. 2 of drawing No. G. 416.
„ (6) 450 lbs. of Stalloy Stampings as per Column No. 3 of drawing No. G. 416.

The above stampings are required for the manufacture of distribution transformers and should conform to the specifications given below.

Quotations should be complete and be accompanied by samples cut in place to show the insulation at the edges and necessary curves showing the total loss, ampere turns per c.m. and the ratio between the hysteresis and eddy current losses, etc., for the full range of flux densities between 8,000 and 18,000 lines per square c.m. at 25 cycles and 50 cycles, without which the tenders will not be considered.

Certified reports of factory tests made in accordance with the B.E.S.A. Standars for losses and permeability for every 5 tons or part thereof of each consignment would be required of the successful tenderer at the time of the supply of materials.

Specifications for Stalloy Stampings.

The sheets should be rolled of high silicon steel and insulated on both sides with varnish which is not affected by hot transformer oil and shellac varnish. The individual sheets should be 0·014″ thick with a nominal weight per square foot of 0·55 lb. The finish of the sheets should be such as to ensure the highest space factor consistent with good insulating properties. The sheets should be accurately punched to the sizes shown in the sketches, so that for every 'U' shaped punching there should be a corresponding yoke piece. The punched sheets should be insulated at the cut edges also. The finished sheets should be free from all burrs and scales ensuring a good magnetic joint. The punchings should be well annealed and aged so that there should be no measurable increase in the iron loss at a density between 10,000 and 13,000 lines per square c.m. when heated to a temperature of 100° C. and the temperature maintained at 100° C. for 600 hours. The total loss per lb. of the material and the ampere turns per c.m. length of the magnetic circuit should not exceed the following figures :—

The thickness of the covering shall in no case exceed the specified values. The wires should be wound in the form of hanks having an internal diameter of not less than 11½″.

In the case of the cables required under Schedule III, the di-electric strength of the varnished cambric tape before cabling should not be less than 1,050 volts per mil at 25° C. and the compound used for the weather-proof braids should have a high melting point and be unaffected by hot transformer oil.

Quotations must be complete furnishing full technical information and be accompanied by samples in the case of all the items under the Schedules I, II and III. The thickness of the cotton covering in the case of items under Schedules I and II, and that of varnished cambric tape and weather-proof braids in the case of items under Schedule III should be furnished. The di-electric strength of the varnished cambric tape at 25° C. both before and after cabling should be specified.

Alternative quotations for paper covered wires in respect of items under Schedules I and II only may be sent together with samples specifying the thickness and di-electric strength of the paper proposed to be offered.

The tender will be opened by the District Forest Officer at 4 P.M., on 2nd October 1936, in the presence of such of the tenderers as may be present.

4. The final acceptance of any tender will rest with the Conservator of Forests who does not bind himself to accept the highest or any tender or to assign any reason whatsoever for rejecting the same.

6. The successful tenderer shall execute a bond on a proper stamped paper embodying terms enumerated here below within a week of the receipt of the orders and shall deposit in Government Savings Bank a sum of Rs. 200 as earnest money for the due fulfilment of the terms of the contract. No plea that, in the area tendered for, dead wood is not available will be accepted for not supplying the stipulated quantity.

(*f*) The successful tenderer shall see that no injury is caused to the State Forest or property situated therein in the course of his operations and in the event of any such occurring through his negligence or of his men, he shall be made liable as per departmental rules.

Neither can the contract or demand as a matter of right payments then and there for the quantity collected by him in excess of that contracted for.

(*g*) Should the collection and carting of sandalwood to the Koti be found unsatisfactory, the District Forest Officer will immediately cancel the contract and make other arrangements for working out the contracted quantity, making the contractor liable to pay up the extra cost, if any, that may be incurred in connection therewith during the period of contract.

(*h*) The contractor shall remove all the scented wood from the pits from which the trees have been uprooted.

(*i*) For the breach of any or all of the above conditions, the contractor shall forfeit the earnest money referred to in para 7 *supra* and the undisbursed portion of moneys, if any, due to him for collection and carting of sandalwood made till the date of default.

The sale will commence at 2 P.M. precisely, on each day, and will be subject to the confirmation of the District Forest Officer, in case of bids of Rs. 1,000 and below, and of the Conservator of Forests in other cases.

N.B.—It should be clearly noted that the contractor should make his own arrangements for the removal of the timber in the Coupes and the Forest Department will not undertake any responsibility in the matter of opening of roads, etc.

2. Each bidder shall, before permitted to bid, be required to furnish a solvency certificate as under the Thangadi Sale Rules and deposit a sum of Rs. 100 (one hundred) as earnest money with the officer conducting the sale ; the deposit will be returnable to him at the close of the sale if his bid is not accepted. The person whose bid is accepted shall, immediately after the close of the sale, pay 25 per cent of the bid amount less deposit already paid, failing which the right will be resold or worked by the department at the risk of the defaulting bidder. He will be liable for the loss, if any, that may result by such resale or departmental working which will be recoverable from him as arrears of land revenue, but he shall not participate in any gain.

3. Defaulters to the department will not be allowed to bid at the sale.

4. The standing timber will be sold in terms of cubic feet (*i.e.*, the bidders will have to bid at so much per cubic foot of timber).

5. Power is reserved to the District Forest Officer to accept or reject any bid without assigning any reason therefor.

6. Within a week from the date of intimation regarding the confirmation of the sale, the person whose bid is accepted shall deposit a sum of Rs. 100 (one hundred) or 25 per cent of the sale amount, whichever is less, for each coupe as security towards the due fulfilment of his contract. He shall pay within that period the remaining 75 per cent of the contract amount due by him and execute an agreement on a stamped paper of proper value, accepting the above terms and the terms specified below, failing which the amount already paid will be forfeited to Government and the produce re-sold or worked by the department at his risk as noted in clause (2) *supra*. The security deposit or the balance thereof as may remain over shall be repayable to the contractor on his producing proof relieving him of any liability under the contract.

The following are the further conditions to which the contractor should bind himself :—

(*a*) That he shall fell and remove the timber purchased by him before the 15th June 1937.

(*b*) That he shall make the felling of the trees in consecutive order as they are marked without picking or choosing and without causing damage to the surrounding growths.

(*c*) That he shall fell the trees he has purchased and dress the logs on the spot, and shall not remove such logs as the District Forest Officer may declare to be unsound and unfit for sale without recourse to sawing. The District Forest Officer's decision regarding the over-dressing of logs shall be final and the contractor shall pay such amount for wastage as may be fixed by the District Forest Officer.

(*d*) That only saws shall be used for cutting up the logs into required lengths and that only white wood, knots and flutes shall be removed while dressing the log and no unnecessary waste shall be caused.

(*e*) That he shall bind himself to pay in advance the value of the minimum quantity of timber to be fixed by the District Forest Officer and shall remove all marketable portions of a tree either in logs, pieces or poles.

(*f*) That he will not be eligible for any refund of advance revenue, if the minimum quantity so fixed is not removed, but any excess quantity removed shall be paid for at auction sale rate.

(*g*) That no timber prepared out of any tree shall be removed unless it is measured and stamped at the stump by the Range Officer, or such other officer as the District Forest Officer may authorise and until it is duly paid for.

(*h*) That each consignment of timber shall be covered by a passport issued by the Range Officer or any other officer deputed by the District Forest Officer in this behalf.

(*i*) That he shall abide by the rules of the Department as regards the kindling of fires and shall hold himself responsible for any forest offences committed by his agents, employees or workmen.

(*j*) That if any tree other than the one bearing the departmental stamp or a tree that has not been purchased is felled, he shall pay a fine not exceeding Rs. 15 for each such tree.

(*k*) That no operations shall take place in the forest after sunset and before sunrise.

(*l*) That he shall not sublet the contract to anybody except with the written sanction of the District Forest Officer.

(*m*) That he shall have no right whatsoever over the coupe and over the timber paid for, but left unremoved in any of the coupes after the 30th June 1937.

(*n*) That he shall maintain a register in the form prescribed by the District Forest Officer showing the number of trees felled and the outturn of timber from each of them and shall keep it open for the examination of Forest Officers above the grade of guards.

(*o*) That for any breach of any of the conditions of the contract by the contractor or his agents, the contract shall be void at the option of the District Forest Officer and that the latter may, after issuing to the contractor, a notice of the cancellation of contract, enforce forfeiture of all or any part of the deposit and shall resell the right or work it departmentally at the risk of the contractor as in clause (2) *supra*. N.B.—Quantities noted are only approximate.

Conditions.

1.—Each bidder shall place a deposit of Rs. 200 with the officer conducting the sale. But defaulters to the department will not be allowed to bid at the sales.

In the case of purchasers of timber not exceeding Rs. 200 in value, this deposit will not be insisted upon, provided that the full purchase money is paid in cash on the spot.

2. Any person bidding at the sale may be required by the officer conducting the sale to state whether he is bidding on his own behalf or as an agent, and in the latter case, to produce a written authority duly signed by the principal.

3. The highest bidder shall ordinarily be the purchaser, but the officer conducting the sale can reject any bid or stop the sale at any stage without assigning any reason to the intending purchasers.

4. Immediately after the lot is knocked down to him, the successful bidder shall sign his name opposite the number and specification of the lot bought by him in a book provided for the purpose. Such signature shall be held as admission on his part of having bought such lot and of having accepted the terms of the sale as herein specified. The sale is subject to the confirmation of the Conservator of Forests, if the amount exceeds Rs. 1,000, and to that of the District Forest Officer in other cases.

5. After conclusion of the sale, each purchaser shall pay 10 per cent of the amount in cash to the officer conducting the sale and obtain in return from him a receipt, vouching for the payment of the one-tenth value as well as the initial deposit of Rs. 200. Should any purchaser fail to comply with this rule, the initial deposit of Rs. 200 shall at once be forfeited to Government and the officer conducting the sale shall be at liberty to re-sell the timber purchased by such defaulter who shall be required to make good any loss, but shall not participate in any profit from such re-sale. The amount due by such defaulter, on account of loss from re-sale, shall be recovered from him as a revenue demand under Section 79 of the Mysore Forest Regulation. In calculating such losses, the initial deposit forfeited to Government shall not be taken into account.

In cases of re-sales for default of payment of value where no bidders are forthcoming, it will be open to the District Forest Officer to fix such price as may appear to him to be reasonable, and to proceed for the recovery from the defaulter of the balance, if any, after deducting the price so fixed from the original sale amount. A registered notice should be issued to the defaulter, intimating the price fixed by the District Forest Officer for the unsold wood, and the amount still due from him which will be recovered as arrears of land revenue.

6. The deposits tendered by the unsuccessful bidders shall be returned immediately after the sales are concluded, those of successful bidders being lodged in the Savings Bank as security deposit.

7. The full value of all timber purchased shall be paid for within thirty days after the date of sale or within fifteen days after the date of the notice of confirmation of the sale, whichever is later. The moneys shall be paid into such treasury as the District Forest Officer may direct within the time specified.

8. If the amount is not fully paid for by the purchaser before the dates fixed above, the initia deposit as well as the other moneys already paid in shall be forfeited to Government and all or any portion of the timber not fully paid for shall be resold at the risk of the purchaser, in the manner prescribed, for default of payment of one-tenth value in clause 5 *supra*.

9. No timber lot shall be permitted to be removed by the purchaser unless it has been paid for in full, calculated at the rates at which the timber is knocked down to him at the time of sale including the 10 per cent deposit paid for the lot at the time of the sale, and no timber shall be removed from the depot unless a permit is obtained from the Forest Officer in charge of the depot. The earnest money will not be adjusted towards the value of timber until 90 per cent of the purchase money over and above the security deposit has been paid.

10. Timber purchased should be removed, as early as possible, and in no case should it be allowed to remain longer than 90 days after 15th May 1937. Timber not removed after purchase will remain in the depot at the risk of the purchaser from the date of the confirmation of the sale.

11. If the timber is not removed within the time allowed, the same may, after ten days' notice to the purchaser, be sold in public auction and the proceeds will be given to the purchaser after defraying all the expenses in connection with the resale.

12. The deposit of Rs. 200 will remain as security for the due fulfilment of all and every one of the terms of sale, for the breach of any of which by the purchaser, the District Forest Officer shall be entitled to forfeit the deposit in whole or in part and in the event of such forfeiture, the sum so forfeited shall be immediately made good by the purchaser so long as the transaction is not finally closed. The security deposit or the balance thereof, if any, shall be returned to the purchaser after the full value of timber purchased has been paid for and the timber fully removed.

R. P. MALLAPPA,
Superintendent.

GOVERNMENT OF MYSORE, ELECTRICAL DEPARTMENT.

Notification dated 30th September 1936.

Sealed tenders for carting materials for one year from the date of acceptance or until further orders will be received in the office of the Chief Electrical Engineer, up to 2 P.M. on the 19th October 1936, relating to Central Stores, Bangalore Power and Lighting, Superintendent of Lines, etc., as detailed below.

2. Tenders should be superscribed as "Tender for carting contract for the year 1936-37 to be opened on the 19th October 1936" and sent in triplicate and be accompanied by a deposit of Rs. 200 in currency notes or cash or Government bonds.

3. Within fifteen days from the date of acceptance of the tender, the successful tenderer will be required to execute an agreement; in default of which, his tender will be considered as cancelled and earnest money forfeited to Government.

4. The rates to be tendered shall be in the accompanying form and should be entered both in figures and words. The rate quoted by the tenderers should be for all kinds of materials including steel or cast iron poles, creosoted baliga poles, reels and other heavy packages. When once the tender is accepted no special rates will be allowed on any representation for special consideration.

5. Payment will be made on bills prepared in duplicate in ink or type-written and submitted by the contractor in the prescribed printed forms once in every month. All claims relating to one complete calender month should be included in one bill for each section.

6. Departmental help for unloading from the wagons and loading into carts will be given only in the case of wooden poles or when the packages are big and heavy and also when careful handling, in the case of fragile material, is essential. In all other cases, loading and unloading of carts should be arranged to be done by the contractor himself. The decision of the Chief Electrical Engineer for all carting done will be final in all cases of doubt and legally binding.

7. If the materials are not promptly carted as required either from the Railway Station or from other places in Bangalore, any demurrage or wharfage and other damages are liable to be debited to the account of the contractor at the discretion of the Chief Electrical Engineer. The carting contractor should make arrangements to be in constant touch with the Superintendent of Stores and other officers of this Department in Bangalore and supply carts whenever called upon to do so at the shortest notice possible. The cartmen or his coolies should submit to the rules of the department.

8. In case of urgency or expediency, the Chief Electrical Engineer will be at liberty to order to transport the materials by the departmental lorry or by departmental hand carts or by head-loads wherever possible and the contractor will have no claim for compensation on such account.

9. If carts are not supplied as and when required, other carts will be engaged on the spot at available rates and any extra cost incurred thereby will be deducted from the pending bills of the contractor or the earnest money. His complaint therefor will not prevail.

10. Fractions of a rupee in the totals of bills amounting to Rs. 25 or more will be rounded to the nearest rupee, that is, fractions of less than half a rupee will be disregarded and half a rupee and over taken as a rupee. Totals of bills for less than Rs. 25 will be rounded to the nearest anna, that is, half an anna and above will be taken as one anna and less than half an anna will be disregarded.

11. The Chief Electrical Engineer reserves the right to accept the lowest or any other tender; he is also at liberty to accept or reject any or all the tenders without assigning any reason therefor. 8. If the amount is not fully paid for by the purchaser before the dates fixed above, the initial deposit as well as the other moneys already paid in shall be forfeited to Government and all or any portion of the timber not fully paid for shall be resold at the risk of the purchaser, in the manner prescribed, for default of payment of one-tenth value in clause 5 *supra*.

9. The earnest money will not be adjusted towards the value of timber until 90 per cent of the purchase money over and above the security deposit has been paid.

N. B.—If the sale is not concluded on the day notified, it will be continued and concluded on the next day.

Conditions.

1. Each bidder shall place a deposit of Rs. 200 with the officer conducting the sale but defaulters to the department will not be allowed to bid at the sales.

In the case of purchasers not exceeding Rs. 200 in value, this initial deposit of Rs. 200 need not be insisted upon, provided that the full purchase money is paid in cash on the spot.

2. Any person bidding at the sale may be required by the officer conducting the sale to state whether he is bidding on his own behalf or as an agent, and in the latter case, to produce a written authority duly signed by the principal.

3. Subject to the minima prices fixed in each case by the Chief Conservator of Forests (which will not be divulged), the highest bidder shall ordinarily be the purchaser, but the officer conducting the sale can reject any bid or stop the sale at any stage without assigning any reason to the intending purchasers. Should any lot be disputed, it shall again be put up and sold.

4. Immediately after the lot is knocked down to him, the successful bidder shall sign his name opposite the number and specification of the lot bought by him in a book provided for the purpose. Such signature shall be held as admission on his part of having bought such lot and of having accepted the terms of the sale as herein specified. All sales of which the amount exceeds Rs. 1,000 in each case are subject to the confirmation of the Chief Conservator, and in other cases to that of the District Forest Officer, subject to the following conditions :—

(1) That the rate realised in a sale does not fall short of the average of the three previous sales by more than 5 per cent or is more than that realised at the previous sales.

(2) That the power of confirming sales up to the limit of Rs. 1,000 shall be exercised only in the case of timber.

(3) That the confirmation of sales is ordered by the District Forest Officer only after the payment of the full purchase money.

5. After conclusion of the sale, each purchaser will be furnished with a memo, showing the total value and the purchase made by him. Thereupon, each purchaser shall pay 10 per cent of the amount in cash to the officer conducting the sale and obtain in return from him a receipt vouching for the payment of the one-tenth value as well as the initial deposit of Rs. 200. Should any purchaser fail to comply with this rule, the initial deposit of Rs. 200 shall at once be forfeited to Government and the officer conducting the sale shall be at liberty to resell the timber purchased by such defaulter who shall be required to make good any loss, but shall not participate in any profit from such resale. The amount due by such defaulter on account of loss from resale shall be recovered from him as a revenue demand under Section 79 of the Mysore Forest Regulation. In calculating such losses, the initial deposit forfeited to Government shall not be taken into account.

In cases of resales for default of payment of value where no bidders are forthcoming, it will be open to the District Forest Officer to fix such price as may appear to him to be reasonable and to proceed for the recovery from the defaulter of the balance, if any, after deducting the price so fixed from the original sale amount. A registered notice should be issued to the defaulter intimating the price fixed by the District Forest Officer for the unsold wood and the amount still due from him which will be recovered as arrears of land revenue.

6. The deposits tendered by the unsuccessful bidders shall be returned immediately after the sales are concluded, those of the successful bidders being lodged in the Savings Bank as security deposit.

7. The full value of all timber purchased shall be paid for within 30 days after the date of sale or within 15 days after the date of the notice of confirmation of the sale, whichever is later. In case of purchasers of above Rs. 1,000 in value, the purchaser shall be permitted to pay up the balance in instalments of not less than Rs. 1,000 provided the full value is paid not later than the 15th May 1937. The money shall be paid into such treasury as the District Forest Officer may direct within the time specified.

8. If the amount is not fully paid for by the purchaser before the dates fixed above, the initial deposit as well as the other moneys already paid in shall be forfeited to Government and all or any portion of the timber not fully paid for shall be resold at the risk of thepurchaser in the manner prescribed for default of payment of one-tenth value in clause 5 *supra*. Interest at 6¼ per cent per annum will be levied on all arrears of amounts which are permitted to be paid after the due date.

9. No timber lot shall be permitted to be removed by the purchaser unless it has been paid for in full, calculated at the rates at which the timber is knocked down to him at the time of sale, excluding the 10 per cent deposit paid for the lot at the time of the sale and no timber shall be removed from the depot, unless a permit is obtained from the Forest Officer in charge of the depot. The earnest money will not be adjusted towards the value of timber until 90 per cent of the purchase money over and above the security deposit has been paid.

10. Timber purchased should be removed as early as possible, and in no case should it be allowed to remain longer than 90 days after the dates fixed in clause 7 *supra*. Timber not removed after purchase will remain in the depot at the risk of the purchaser from the date of the confirmation of the sale.

11. If the timber is not removed within the time allowed, the same may, after ten days' notice to the purchaser, be sold in public auction and the proceeds will be given to the purchaser after defraying all the expenses in connection with the resale.

12. The deposit of Rs. 200 will remain as security for the due fulfilment of all and every one of the terms of sale, on the breach of any of which by the purchaser, the District Forest Officer shall be entitled to forfeit the deposit in whole or in part and in the event of such forfeiture, the sum so forfeited shall be immediately made good by the purchaser so long as the transaction is not finally closed. The security deposit or the balance thereof, if any, shall be returned to the purchaser after the full value of timber purchased has been paid for and the timber fully removed.

Conditions.

1. Each bidder shall place a deposit of Rs. 200 with the officer conducting the sale but defaulters to the department will not be allowed to bid at the sales.

In the case of purchasers not exceeding Rs. 200 in value, this initial deposit of Rs. 200 need not be insisted upon, provided that the full purchase money is paid in cash on the spot.

2. Any person bidding at the sale may be required by the officer conducting the sale to state whether he is bidding on his own behalf or as an agent, and in the latter case, to produce a written authority duly signed by the principal.

3. Subject to the minima prices fixed in each case by the Chief Conservator of Forests (which will not be divulged), the highest bidder shall ordinarily be the purchaser, but the officer conducting the sale can reject any bid or stop the sale at any stage without assigning any reason to the intending purchasers. Should any lot be disputed, it shall again be put up and sold.

4. Immediately after the lot is knocked down to him, the successful bidder shall sign his name opposite the number and specification of the lot bought by him in a book provided for the purpose. Such signature shall be held as admission on his part of having bought such lot and of having accepted the terms of the sale as herein specified. All sales of which the amount exceeds Rs. 1,000 in each case are subject to the confirmation of the Chief Conservator, and in other cases to that of the District Forest Officer, subject to the following conditions :—

(1) That the rate realised in a sale does not fall short of the average of the three previous sales by more than 5 per cent or is more than that realised at the previous sales.

(2) That the power of confirming sales up to the limit of Rs. 1,000 shall be exercised only in the case of timber.

(3) That the confirmation of sales is ordered by the District Forest Officer only after the payment of the full purchase money.

5. After conclusion of the sale, each purchaser will be furnished with a memo, showing the total value and the purchase made by him. Thereupon, each purchaser shall pay 10 per cent of the amount in cash to the officer conducting the sale and obtain in return from him a receipt vouching for the payment of the one-tenth value as well as the initial deposit of Rs. 200. Should any purchaser fail to comply with this rule, the initial deposit of Rs. 200 shall at once be forfeited to Government and the officer conducting the sale shall be at liberty to resell the timber purchased by such defaulter who shall be required to make good any loss, but shall not participate in any profit from such resale. The amount due by such defaulter on account of loss from resale shall be recovered from him as a revenue demand under Section 79 of the Mysore Forest Regulation. In calculating such losses, the initial deposit forfeited to Government shall not be taken into account.

In cases of resales for default of payment of value where no bidders are forthcoming, it will be open to the District Forest Officer to fix such price as may appear to him to be reasonable and to proceed for the recovery from the defaulter of the balance, if any, after deducting the price so fixed from the original sale amount. A registered notice should be issued to the defaulter intimating the price fixed by the District Forest Officer for the unsold wood and the amount still due from him which will be recovered as arrears of land revenue.

6. The deposits tendered by the unsuccessful bidders shall be returned immediately after the sales are concluded, those of the successful bidders being lodged in the Savings Bank as security deposit.

7. The full value of all timber purchased shall be paid for within 30 days after the date of sale or within 15 days after the date of the notice of confirmation of the sale, whichever is later. The money shall be paid into such treasury as the District Forest Officer may direct within the time specified.

8. If the amount is not fully paid for by the purchaser before the dates fixed above, the initial deposit as well as the other moneys already paid in shall be forfeited to Government and all or any portion of the timber not fully paid for shall be resold at the risk of the purchaser in the manner prescribed for default of payment of one-tenth value in clause 5 *supra*. Interest at $6\frac{1}{4}$ per cent per annum will be levied on all arrears of amounts which are permitted to be paid after the due date.

9. No timber lot shall be permitted to be removed by the purchaser unless it has been paid for in full, calculated at the rates at which the timber is knocked down to him at the time of sale, excluding the 10 per cent deposit paid for the lot at the time of the sale and no timber shall be removed from the depot, unless a permit is obtained from the Forest Officer in charge of the depot. The earnest money will not be adjusted towards the value of timber until 90 per cent of the purchase money over and above the security deposit has been paid.

10. Timber purchased should be removed as early as possible, and in no case should it be allowed to remain longer than 90 days after the dates fixed in clause 7 *supra*. Timber not removed after purchase will remain in the depot at the risk of the purchaser from the date of the confirmation of the sale.

11. If the timber is not removed within the time allowed, the same may, after ten days' notice to the purchaser, be sold in public auction and the proceeds will be given to the purchaser after defraying all the expenses in connection with the resale.

12. The deposit of Rs. 200 will remain as security for the due fulfilment of all and every one of the terms of sale, on the breach of any of which by the purchaser, the District Forest Officer shall be entitled to forfeit the deposit in whole or in part and in the event of such forfeiture, the sum so forfeited shall be immediately made good by the purchaser so long as the transaction is not finally closed. Conditions.

1. Each bidder shall place a deposit of Rs. 200 with the officer conducting the sale. But defaulters to the Department will not be allowed to bid at the sales.

In the case of purchasers of timber not exceeding Rs. 200 in value, this deposit will not be insisted upon, provided that the full purchase money is paid in cash on the spot.

2. Any person bidding at the sale may be required by the officer conducting the sale to state whether he is bidding on his own behalf or as an agent, and in the latter case, to produce a written authority duly signed by the principal.

3. The highest bidder shall ordinarily be the purchaser, but the officer conducting the sale can reject any bid or stop the sale at any stage without assigning any reason to the intending purchasers.

4. Immediately after the lot is knocked down to him, the successful bidder shall sign his name opposite the number and specification of the lot bought by him in a book provided for the purpose. Such signature shall be held as admission on his part of having bought such lot and of having accepted the terms of the sale as herein specified. The sale is subject to the confirmation of the Conservator of Forests if the amount exceeds Rs. 1,000.

5. After conclusion of the sale, each purchaser shall pay 10 per cent of the amount in cash to the officer conducting the sale and obtain in return from him a receipt vouching for the payment of the one-tenth value as well as the initial deposit of Rs. 200. Should any purchaser fail to comply with this rule, the initial deposit of Rs. 200 shall at once be forfeited to Government and the officer conducting the sale shall be at liberty to resell the timber purchased by such defaulter who shall be required to make good any loss, but shall not participate in any profit from such resale. The amount due by such defaulter, on account of loss from resale, shall be recovered from him as a revenue demand under Section 79 of the Mysore Forest Regulation. In calculating such losses, the initial deposit forfeited to Government shall not be taken into account.

In cases of resales for default of payment of value where no bidders are forthcoming, it will be open to the District Forest Officer to fix such price, as may appear to him to be reasonable, and to proceed for the recovery from the defaulter of the balance, if any, after deducting the price so fixed from the original sale amount. A registered notice should be issued to the defaulter, intimating the price fixed by the District Forest Officer for the unsold wood and the amount still due from him which will be recovered as arrears of land revenue.

6. The deposits tendered by the unsuccessful bidders shall be returned immediately after the sales are concluded, those of successful bidders being lodged in the Savings Bank as security deposit.

7. The full value of all timber purchased shall be paid for within fifteen days after the date of the notice of confirmation of the sale, or within thirty days after the date of sale whichever is later. In case of purchases above Rs. 1,000 in value, the purchaser shall be permitted to pay up the balance in instalments of not less than Rs. 1,000 provided the full value is paid not later than the 15th May 1937. The money shall be paid into such treasury as the District Forest Officer may direct within the time specified.

8. If the amount is not fully paid for by the purchaser before the dates fixed above, the initial deposit as well as the other moneys already paid in shall be forfeited to Government and all or any portion of the timber not fully paid for shall be resold at the risk of the purchaser in the manner prescribed for default of payment of one-tenth value in clause 5 *supra*.

9. No timber lot shall be permitted to be removed by the purchaser unless it has been paid for in full, calculated at the rates at which the timber is knocked down to him at the time of sale, including the 10 per cent deposit paid for the lot at the time of the sale, and no timber shall be removed from the depot unless a permit is obtained from the Forest Officer in charge of the depot. The earnest money will not be adjusted towards the value of timber until 90 per cent of the purchase money over and above the security deposit has been paid.

10. Timber purchased should be removed as early as possible, and in no case should it be allowed to remain longer than 90 days after 15th May 1937. Timber not removed after purchase will remain in the depot at the risk of the purchaser from the date of the confirmation of the sale.

11. If the timber is not removed within the time allowed, the same may, after ten days' notice to the purchaser, be sold in public auction and the proceeds will be given to the purchaser after defraying all the expenses in connection with the resale.

12. The deposit of Rs. 200 will remain as security for the due fulfilment of all and every one of the terms of sale, for the breach of any of which by the purchaser, the District Forest Officer shall be entitled to forfeit the deposit in whole or in part and in the event of such forfeiture, the sum so forfeited shall be immediately made good by the purchaser so long as the transaction is not finally closed. The security deposit or the balance thereof, if any, shall be returned to the purchaser after the full value of timber purchased has been paid for and the timber fully removed.

13. Interest will be charged on all belated payments at 6¼ per cent per annum from the date of their falling due up to the date of payment.

SHIMOGA FOREST DIVISION.

SALE OF TIMBER.

Notification dated 4th December 1936.

It is hereby notified for general information that the undermentioned kinds and quantities of timber will be sold by public auction under the following conditions at the following depots by the District Forest Officer, Shimoga Division, or any other officer deputed by him on the dates noted against each Depot :—

Name of place	Kind	Quantity		Date of sale
		Poles.	C.ft.	
Arasalu Range Office ..	Teak poles obtained from the Sudur plantation in the course of thinning.	66	90	21st December 1936, 2 P.M.

Conditions.

1. Each bidder shall place a deposit of Rs. 200 with the officer conducting the sale. But defaulters to the Department will not be allowed to bid at the sales.

In the case of purchasers of timber not exceeding Rs. 200 in value, this deposit will not be insisted upon, provided that the full purchase money is paid in cash on the spot.

2. Any person bidding at the sale may be required by the officer conducting the sale to state whether he is bidding on his own behalf or as an agent, and in the latter case, to produce a written authority duly signed by the Principal.

3. The highest bidder shall ordinarily be the purchaser, but the officer conducting the sale can reject any bid or stop the sale at any stage without assigning any reason to the intending purchasers.

4. Immediately after the lot is knocked down to him, the successful bidder shall sign his name opposite the number and specification of the lot bought by him in a book provided for the purpose. Such signature shall be held as admission on his part of having bought such lot and of having accepted the terms of the sale as herein specified. The sale is subject to the confirmation of the Conservator of Forests if the amount exceeds Rs. 1,000.

5. After conclusion of the sale, each purchaser shall pay 10 per cent of the amount in cash to the officer conducting the sale and obtain in return from him a receipt vouching for the payment of the one-tenth value as well as the initial deposit of Rs. 200. Should any purchaser fail to comply with this rule, the initial deposit of Rs. 200 shall at once be forfeited to Government and the officer conducting the sale shall be at liberty to resell the timber purchased by such defaulter who shall be required to make good any loss, but shall not participate in any profit from such resale. The amount due by such defaulter, on account of loss from resale, shall be recovered from him as a revenue demand under Section 79 of the Mysore Forest Regulation. In calculating such losses, the initial deposit forfeited to Government shall not be taken into account.

In cases of resales for default of payment of value where no bidders are forthcoming, it will be open to the District Forest Officer to fix such price, as may appear to him to be reasonable, and to proceed for the recovery from the defaulter of the balance, if any, after deducting the price so fixed from the original sale amount. A registered notice should be issued to the defaulter, intimating the price fixed by the District Forest Officer for the unsold wood and the amount still due from him which will be recovered as arrears of land revenue.

6. The deposits tendered by the unsuccessful bidders shall be returned immediately after the sales are concluded, those of successful bidders being lodged in the Savings Bank as security deposit.

7. The full value of all timber purchased shall be paid for within thirty days after the date of sale or within fifteen days after the date of the notice of confirmation of the sale, whichever is later. In case of purchases above Rs. 1,000 in value, the purchaser shall be permitted to pay up the balance in instalments of not less than Rs. 1,000 provided the full value is paid not later than 15th May 1937. The money shall be paid into such treasury as the District Forest Officer may direct within the time specified.

8. If the amount is not fully paid for by the purchaser before the dates fixed above, the initial deposit as well as the other moneys already paid in shall be forfeited to Government and all or any portion of the timber not fully paid for shall be resold at the risk of the purchaser in the manner prescribed for default of payment of one-tenth value in clause 5 *supra*.

9. No timber lot shall be permitted to be removed by the purchaser unless it has been paid for in full, calculated at the rates at which the timber is knocked down to him at the time of sale, including the 10 per cent deposit paid for the lot at the time of the sale, and no timber shall be removed from the depot unless a permit is obtained from the Forest Officer in charge of the depot. The earnest money will not be adjusted towards the value of timber until 90 per cent of the purchase money over and above the security deposit has been paid.

10. Timber purchased should be removed as early as possible, and in no case should it be allowed to remain longer than 90 days after 30th June 1937. Timber not removed after purchase will remain in the depot at the risk of the purchaser from the date of the confirmation of the sale.

11. If the timber is not removed within the time allowed, the same may, after ten days' notice to the purchaser, be sold in public auction and the proceeds will be given to the purchaser after defraying all the expenses in connection with the resale.

12. The deposit of Rs. 200 will remain as security for the due fulfilment of all and every one of the terms of sale, for the breach of any of which by the purchaser, the District Forest Officer shall be entitled to forfeit the deposit in whole or in part and in the event of such forfeiture, the sum so forfeited shall be immediately made good by the purchaser so long as the transaction is not finally closed. The security deposit or the balance thereof, if any, shall be returned to the purchaser after the full value of timber purchased has been paid for and the timber fully removed.

13. Interest will be charged on all belated payments at $6\frac{1}{4}$ per cent per annum from the date of their falling due up to the date of payment.

P. KRISHNASWAMI RAO,
District Forest Officer.

N.B.—If the sale is not concluded on the day notified, it will be continued and concluded on the next day.

Conditions.

1. Each bidder shall place a deposit of Rs. 200 with the officer conducting the sale but defaulters to the department will not be allowed to bid at the sales.

In the case of purchasers not exceeding Rs. 200 in value, this initial deposit of Rs. 200 need not be insisted upon, provided that the full purchase money is paid in cash on the spot.

2. Any person bidding at the sale may be required by the officer conducting the sale to state whether he is bidding on his own behalf or as an agent, and in the latter case, to produce a written authority duly signed by the principal.

3. Subject to the minima prices fixed in each case by the Chief Conservator of Forests (which will not be divulged), the highest bidder shall ordinarily be the purchaser, but the officer conducting the sale can reject any bid or stop the sale at any stage without assigning any reason to the intending purchasers. Should any lot be disputed, it shall again be put up and sold.

4. Immediately after the lot is knocked down to him, the successful bidder shall sign his name opposite the number and specification of the lot bought by him in a book provided for the purpose. Such signature shall be held as admission on his part of having bought such lot and of having accepted the terms of the sale as herein specified. All sales of which the amount exceeds Rs. 1,000 in each case are subject to the confirmation of the Chief Conservator, and in other cases to that of the District Forest Officer, subject to the following conditions:—

(1) That the rate realised in a sale does not fall short of the average of the three previous sales by more than 5 per cent or is more than that realised at the previous sales.

(2) That the power of confirming sales up to the limit of Rs. 1,000 shall be exercised only in the case of timber.

(3) That the confirmation of sales is ordered by the District Forest Officers only after the payment of the full purchase money.

5. After conclusion of the sale, each purchaser will be furnished with a memo, showing the total value and the purchase made by him. Thereupon, each purchaser shall pay 10 per cent of the amount in cash to the officer conducting the sale and obtain in return from him a receipt vouching for the payment of the one-tenth value as well as the initial deposit of Rs. 200. Should any purchaser fail to comply with this rule, the initial deposit of Rs. 200 shall at once be forfeited to Government and the officer conducting the sale shall be at liberty to resell the timber purchased by such defaulter who shall be required to make good any loss, but shall not participate in any profit from such resale. The amount due by such defaulter on account of loss from resale shall be recovered from him as a revenue demand under Section 79 of the Mysore Forest Regulation. In calculating such losses, the initial deposit forfeited to Government shall not be taken into account.

In cases of resales for default of payment of value where no bidders are forthcoming, it will be open to the District Forest Officer to fix such price as may appear to him to be reasonable and to proceed for the recovery from the defaulter of the balance, if any, after deducting the price so fixed from the original sale amount. A registered notice should be issued to the defaulter intimating the price fixed by the District Forest Officer for the unsold wood and the amount still due from him which will be recovered as arrears of land revenue.

6. The deposits tendered by the unsuccessful bidders shall be returned immediately after the sales are concluded, those of the successful bidders being lodged in the Savings Bank as security deposit.

7. The full value of all timber purchased shall be paid for within 30 days after the date of sale or within 15 days after the date of the notice of confirmation of the sale, whichever is later. In case of purchasers of above Rs. 1,000 in value, the purchaser shall be permitted to pay up the balance in instalments of not less than Rs. 1,000 provided the full value is paid not latter than the 15th May 1937. The money shall be paid into such treasury as the District Forest Officer may direct within the time specified.

8. If the amount is not fully paid for by the purchaser before the dates fixed above, the initial deposit as well as the other moneys already paid in shall be forfeited to Government and all or any portion of the timber not fully paid for shall be resold at the risk of the purchaser in the manner prescribed for default of payment of one-tenth value in clause 5 *supra*. Interest at 6¼ per cent per annum will be levied on all arrears of amounts which are permitted to be paid after the due date.

9. No timber lot shall be permitted to be removed by the purchaser unless it has been paid for in full, calculated at the rates at which the timber is knocked down to him at the time of sale, excluding the 10 per cent deposit paid for the lot at the time of the sale, and no timber shall be removed from the depot, unless a permit is obtained from the Forest Officer in charge of the depot. The earnest money will not be adjusted towards the value of timber until 90 per cent of the purchase money over and above the security deposit has been paid.

10. Timber purchased should be removed as early as possible, and in no case should it be allowed to remain longer than 90 days after the dates fixed in clause 7 *supra*. Timber not removed

after purchase will remain in the depot at the risk of the purchaser from the date of the confirmation of the sale.

11. If the timber is not removed within the time allowed, the same may, after ten days' notice to the purchaser, be sold in public auction and the proceeds will be given to the purchaser after defraying all the expenses in connection with the resale.

12. The deposit of Rs. 200 will remain as security for the due fulfilment of all and every one of the terms of sale, on the breach of any of which by the purchaser, the District Forest Officer shall be entitled to forfeit the deposit in whole or in part and in the event of such forfeiture, the sum so forfeited shall be immediately made good by the purchaser so long as the transaction is not finally closed. The security deposit or the balance thereof, if any, shall be returned to the purchaser after the full value of timber purchased has been paid for and the timber fully removed.

Conditions.

1. Each bidder shall place a deposit of Rs. 200 with the officer conducting the sale. But defaulters to the department will not be allowed to bid at the sales.

In the case of purchasers of timber not exceeding Rs. 200 in value, this deposit will not be insisted upon, provided that the full purchase money is paid in cash on the spot.

2. Any person bidding at the sale may be required by the officer conducting the sale to state whether he is bidding on his own behalf or as an agent, and in the latter case, to produce a written authority duly signed by the principal.

3. The highest bidder shall ordinarily be the purchaser, but the officer conducting the sale can reject any bid or stop the sale at any stage without assigning any reason to the intending purchasers.

4. Immediately after the lot is knocked down to him, the successful bidder shall sign his name opposite the number and specification of the lot bought by him in a book provided for the purpose. Such signature shall be held as admission on his part of having bought such lot and of having accepted the terms of the sale as herein specified. The sale is subject to the confirmation of the Conservator of Forests, if the amount exceeds Rs. 1,000, and to that of the District Forest Officer in other cases.

5. After conclusion of the sale, each purchaser shall pay 10 per cent of the amount in cash to the officer conducting the sale and obtain in return from him a receipt, vouching for the payment of the one-tenth value as well as the initial deposit of Rs. 200. Should any purchaser fail to comply with this rule, the initial deposit of Rs. 200 shall at once be forfeited to Government and the officer conducting the sale shall be at liberty to re-sell the timber purchased by such defaulter who shall be required to make good any loss, but shall not participate in any profit from such re-sale. The amount due by such defaulter, on account of loss from re-sale, shall be recovered from him as a revenue demand under Section 79 of the Mysore Forest Regulation. In calculating such losses, the initial deposit forfeited to Government shall not be taken into account.

In cases of re-sales for default of payment of value where no bidders are forthcoming, it will be open to the District Forest Officer to fix such price as may appear to him to be reasonable, and to proceed for the recovery from the defaulter of the balance, if any, after deducting the price so fixed from the original sale amount. A registered notice should be issued to the defaulter, intimating the price fixed by the District Forest Officer for the unsold wood, and the amount still due from him which will be recovered as arrears of land revenue.

6. The deposits tendered by the unsuccessful bidders shall be returned immediately after the sales are concluded, those of successful bidders being lodged in the Savings Bank as security deposit.

7. The full value of all timber purchased shall be paid for within thirty days after the date of sale or within fifteen days after the date of the notice of confirmation of the sale, whichever is later. The moneys shall be paid into such treasury as the District Forest Officer may direct within the time specified.

8. If the amount is not fully paid for by the purchaser before the dates fixed above, the initial deposit as well as the other moneys already paid in shall be forfeited to Government and all or any portion of the timber not fully paid for shall be resold at the risk of the purchaser, in the manner prescribed, for default of payment of one-tenth value in clause 5 *supra*.

9. No timber lot shall be permitted to be removed by the purchaser unless it has been paid for in full, calculated at the rates at which the timber is knocked down to him at the time of sale including the 10 per cent deposit paid for the lot at the time of the sale, and no timber shall be removed from the depot unless a permit is obtained from the Forest Officer in charge of the depot. The earnest money will not be adjusted towards the value of timber until 90 per cent of the purchase money over and above the security deposit has been paid.

10. Timber purchased should be removed, as early as possible, and in no case should it be allowed to remain longer than 90 days after 15th May 1937. Timber not removed after purchase will remain in the depot at the risk of the purchaser from the date of the confirmation of the sale.

11. If the timber is not removed within the time allowed, the same may, after ten days' notice to the purchaser, be sold in public auction and the proceeds will be given to the purchaser after defraying all the expenses in connection with the resale.

12. The deposit of Rs. 200 will remain as security for the due fulfilment of all and every one of the terms of sale, for the breach of any of which by the purchaser, the District Forest Officer shall be entitled to forfeit the deposit in whole or in part and in the event of such forfeiture, the sum so forfeited shall be immediately made good by the purchaser so long as the transaction is not finally closed. The security deposit or the balance thereof, if any, shall be returned to the purchaser after the full value of timber purchased has been paid for and the timber fully removed.

13. Interest will be charged on all belated payments at $6\frac{1}{4}$ per cent per annum from the date of their falling due up to the date of payment.
